TABLA CREADA

The image shows two screenshots of a web application. The top screenshot displays the 'GENERADOR DE TABLA' (Table Generator) interface. It has a light purple background with a pink and blue abstract pattern. The interface includes input fields for 'Filas' (Rows) set to 4 and 'Columnas' (Columns) set to 9, and a 'GENERAR TABLA' button. The right sidebar shows the user profile for 'cbtis75.edu.mx' with the name 'MARIA NAYELI BALDERAS RAMIREZ' and email 'maria20423@cbtis75.edu.mx'. It also indicates that synchronization is active and lists other profiles: 'maria', 'nayeli', 'Persona 3', and 'Invitado'. The bottom screenshot shows the result of the table generation. The title 'La tabla generada 9 columnas y 4 rengiones' is displayed above a table with 4 rows and 9 columns. The table contains a sequence of numbers from 11 to 49. The right sidebar is identical to the one in the top screenshot.
